WHY SUMMER SCHOOL? WHY AVILA?

Summer School students (there were 731 enrolled in 1975) are at Avila

for a variety of reasons.

Donna Phinney, 2514 Tomahawk Road, Shawnee Mission, Kansas, said "My three daughters are grown, and my life needed a new direction. Why Avila? My neighbor was getting an extra degree here, so I came out and talked to the admissions people. They told me how to proceed. I'm taking slx hours this summer, to see if I can handle a full schedule in the fall. It's difficult to become a student - I have to reorganize my time, read to be

tested, not for pleasure. I feel accepted by younger students, and especially appreciate the absolute willingness of the instructors . to help."

Jeff Gilmore, 21, of 12438 Blue Ridge Road, Grandview, a resident student sophomore, is at Avila on a basketball scholarship. He works in the

mailroom all year, and Is taking summer school because "I want to get through sooner. I'm going to be back here next summer, too.'

Jeff plans to major in social work. He likes Avila, "Everybody's friendly, coaches, teachers are nice." Is it hard?

"Oh, yeah."

Brenda O'Shea, 26, second-semester sophomore, of 9951 Walnut Drive, Kansas City, Missouri, a divorcee with a two year old son, works full time and goes to school full time. She came to Avila to finish her degree as a medical technician. Why Avila? "For the quality or the education, the med. tech. program offered, and the small school. I like the mixture of age groups, and the atmosphere."

Dochia Trotter, senior, 3941 Bales. Kansas City, Missouri, says, "I'm here because it's easier to go to school in

the summer. I have four small children; I teach Head Start classes all day during the school year and go to school at night; I'm pianist and director of my church cholr. It's hard, but I'm determined to get my degree in elementary education. Why Avila? It cooperates well with area schools to transfer credit (from Penn Valley in my case) and it's a good school to get my degree from.'

ART GALLERY OPENS

Suror T. Marashi, resident art major from Iran, will have her senior student exhibit in the gallery from September 8-12.

ANTIQUE PACKARD LICENSED "AVILA"

When Edward F. Flaherty, Sr. realized that the family car he'd been driving regularly for 37 years could be classed an antique (over 35 years) he applied to the Kansas Motor Vehicle Department for a permanent license plate. His suggestions of family names having been already used, he submitted "Avila", as his daughter, Sr. Rita Flaherty, was a faculty member at the college.

Mr. Flaherty, who owned a Packard service garage for many years, bought his car-used in 1940.

The car, a shining black 1938 Packard 5 passenger deluxe touring sedan. is in excellent condition, spacious and comfortable to ride in. "It stays nice and takes little upkeep", says Mr. Fla-herty, a slight, white haired, ruddy faced man of 80. "Like the old saying about the shoemaker's child never having shoes, the mechanic's car doesn't get worked on."

Still active, Flaherty works three days a week as a mechanic at a Leawood service station near his home at 9300 Lee Boulevard.

Edward F. Flaherty comes to take Sr. Olive Louise for a ride in his vintage Packard.
